Please amend the paragraph beginning at line 15 through line 23, with the following new paragraph:

Figs. 37A to 37C show other methods of generating the 3D font. In Figs. 37A, 37B and 37C, other examples of the aforementioned reduction method are shown respectively. In these drawings, the white box represents a pixel of value zero, the black box represents a pixel of value k that is any value except for zero, and the gray box represents a pixel of value m that is any value except for zero and less than k . Further, (1) to ~~(2)~~ (4) in the drawings concerning respective reduction methods indicate a relation between a combination of respective values of two pixels horizontally adjacent to each other and a pixel value resulting from the reduction process performed on these pixels.
